

How to Design and Implement a Cognitive Protocol

Course code	TC-5002
Duration	Full day
Course type	Instructor (minimum of 2 attendees, maximum of 10 attendees)
Location	Customer site
Cost per attendee	On application

What you will learn

You will learn how to design a Cognitive Protocol (a cognitive mapping research design) and how to implement it.

Who should attend?

Designers who wish to design a cognitive protocol that is operationalised using Cognizer.
Investigators who wish to implement a cognitive protocol using Cognizer.

Prerequisites

A basic understanding of research design.
A basic understanding of research implementation.

Course content

Unit 01: Introduction
Unit 02: Definitions, Key Concepts and History
Unit 03: Methods and Techniques
Unit 04: Research Design
Unit 05: Cognitive Protocol
